

The Benefits of StoneSkirt™

Attractive

Available in a wide variety of textures and colors, StoneSkirt has the design appeal and aesthetic versatility you require.

Durable

StoneSkirt's segmental concrete unit design is resistant to those factors that damage or deface most other types of enclosure materials.

- Damage from natural elements (wind, snow, hail)
- Abuse from equipment (mowers, string trimmers, snow blowers)
- Aging (twisting, bending, rusting)

Versatile

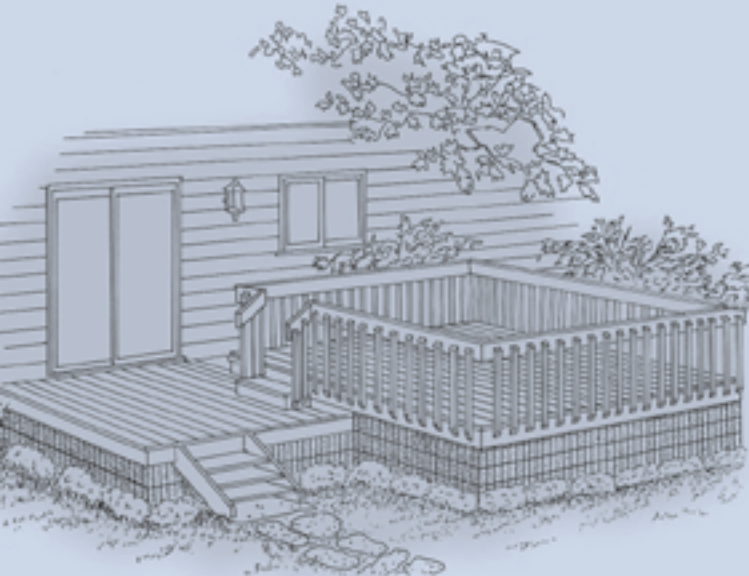

StoneSkirt can be easily installed on new or existing decks.

Easy to Install

The combination of lightweight units and patented I-Beam technology creates a fast, easy and economical installation.

Cost Effective

StoneSkirt's mortarless design eliminates the need for highly skilled labor, saving you time and money.

The History of StoneSkirt™

StoneSkirt in conjunction with Alliance Concrete Concepts, Inc., is founded on a family business heritage that spans three generations and over 50 years. This heritage is based on four core values that have not changed, since first discussed back in 1949: Honesty, Customer Service, Teamwork and Hard Work. It is from these values, we are able to produce the high quality products available to you today.

— Warranty —

StoneSkirt products are backed by a 20 year limited warranty.

StoneSkirt
assembles in
a snap...

TOOLS NEEDED

- Safety Glasses
- Rubber Hammer
- Gloves
- Chisel
- Stakes
- Concrete adhesive
- Shovel
- Tamper
- String
- Level
- Power Drill

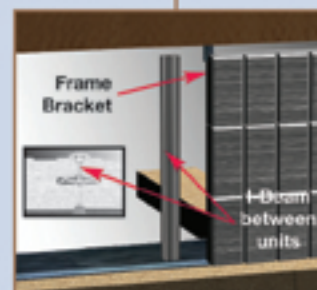

STEP 1 Start at the lowest corner of the deck. Position and level the angle iron.

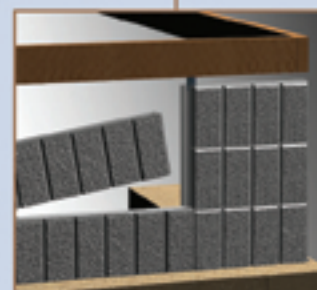

STEP 2 The first column at each corner consists of 16" wide units. Split the units with a brick chisel.

STEP 3 Place one 16" split unit on top of another. Check to ensure the column is straight and that it allows for adequate frost heave.

STEP 4 Press the I-beam into position along the side of the completed column. Place the frame bracket in front of the I-beam and attach with a screw.

STEP 5 Assemble additional StoneSkirt columns using the angle iron, full width units, I-beam and frame bracket.
